

BRIDGER

ANALYTICAL LAB, INC.

Certified Water Analysis

We are an independent laboratory, whose continued existence relies upon quality service. Established in 2007, Bridger Analytical Lab provides independent, quality controlled, confidential analytical services in public and domestic water testing. Our laboratory specializes in inorganic and microbiological analysis of water. The most common tests are Bacteria (Total and Fecal Coliform) and Nitrates. We offer complete water testing support. All public drinking water results are reported to the State as per EPA Regulations.

Inorganic	Price
